

## Thawing and Recovering Cells with Complete Growth Media with Serum & Utilizing ECM pre-coated flasks. WEEK #1

Note: Based on the cells proliferation rate, you may be able to freeze more vials. 1

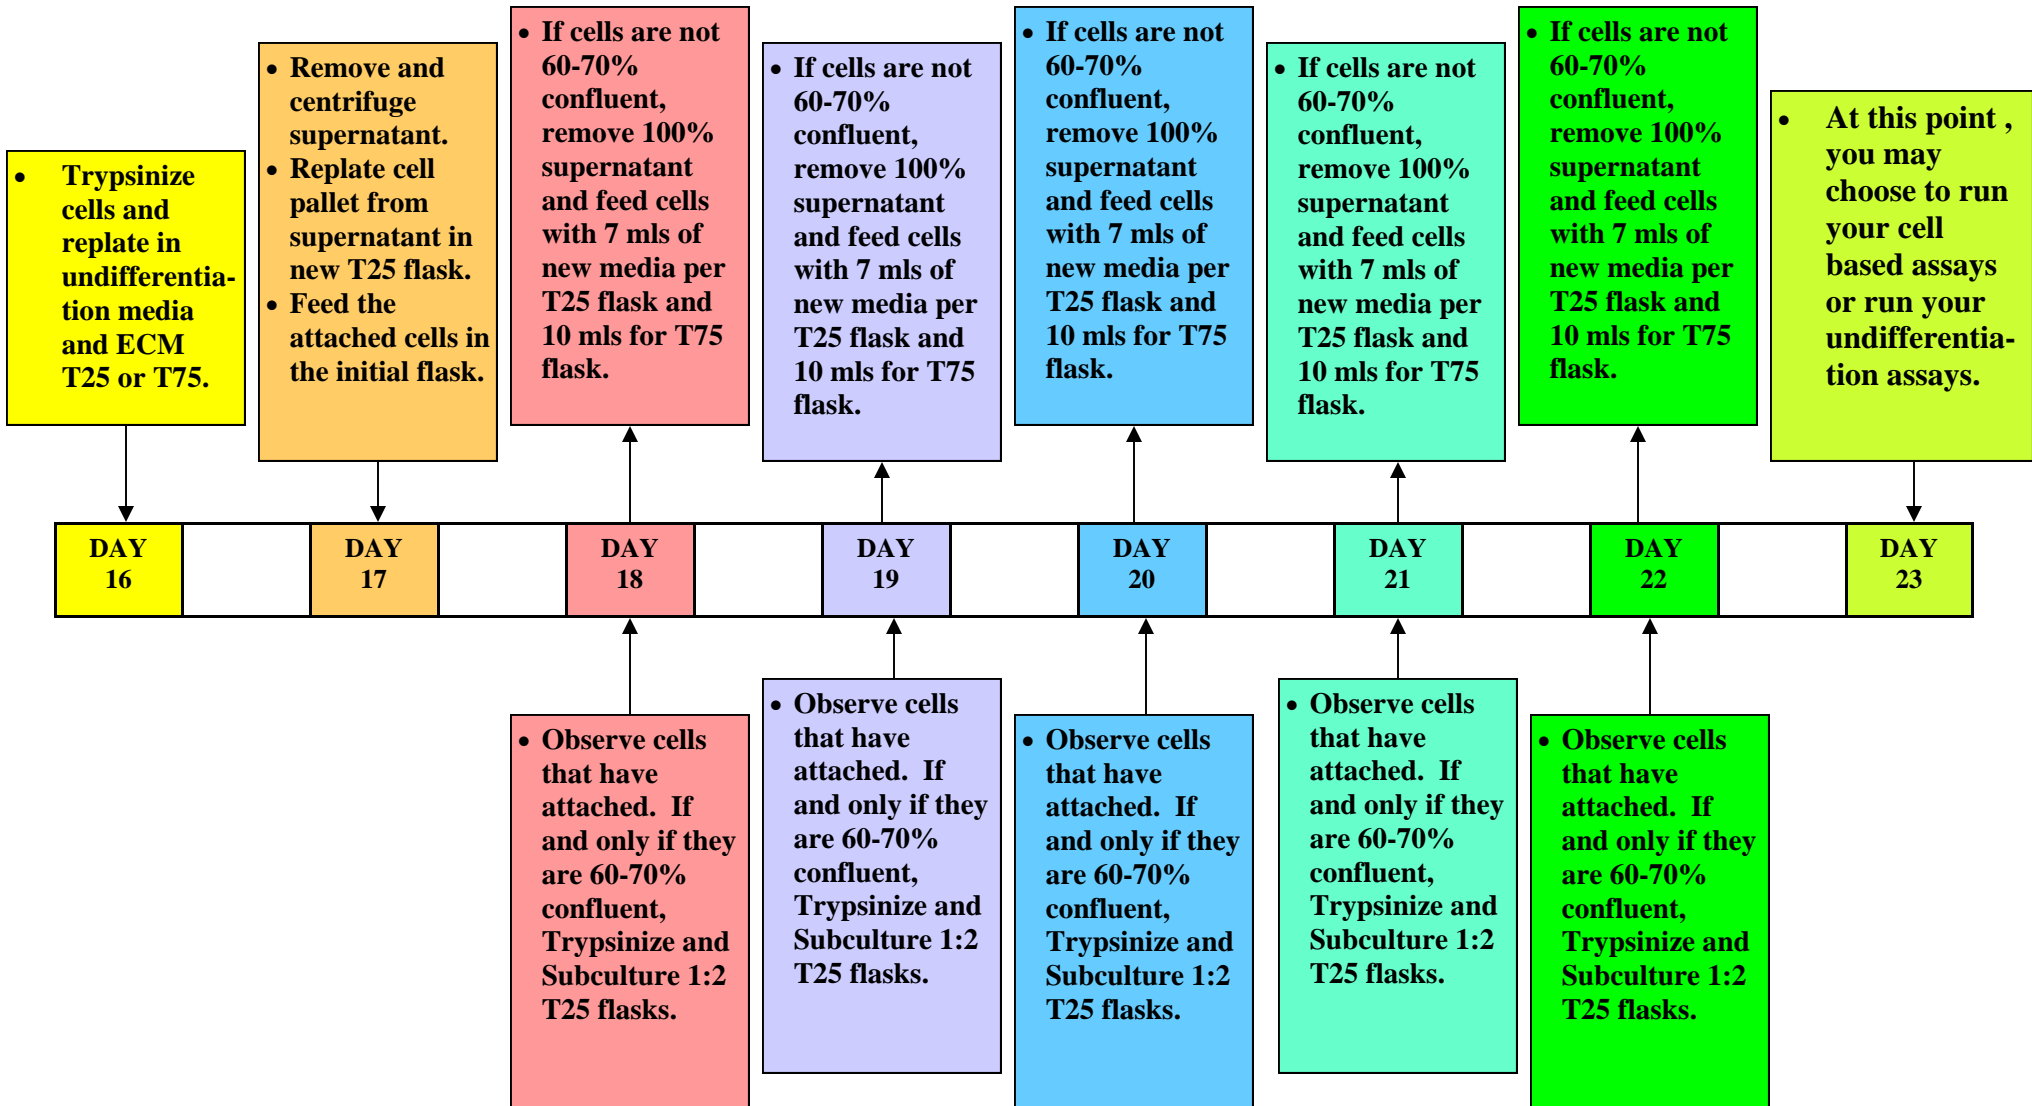

## Expanding cells with Expansion Media with Serum & Utilizing ECM pre-coated flasks. WEEK #2

Note: Based on the cells proliferation rate, you may be able to freeze more vials.

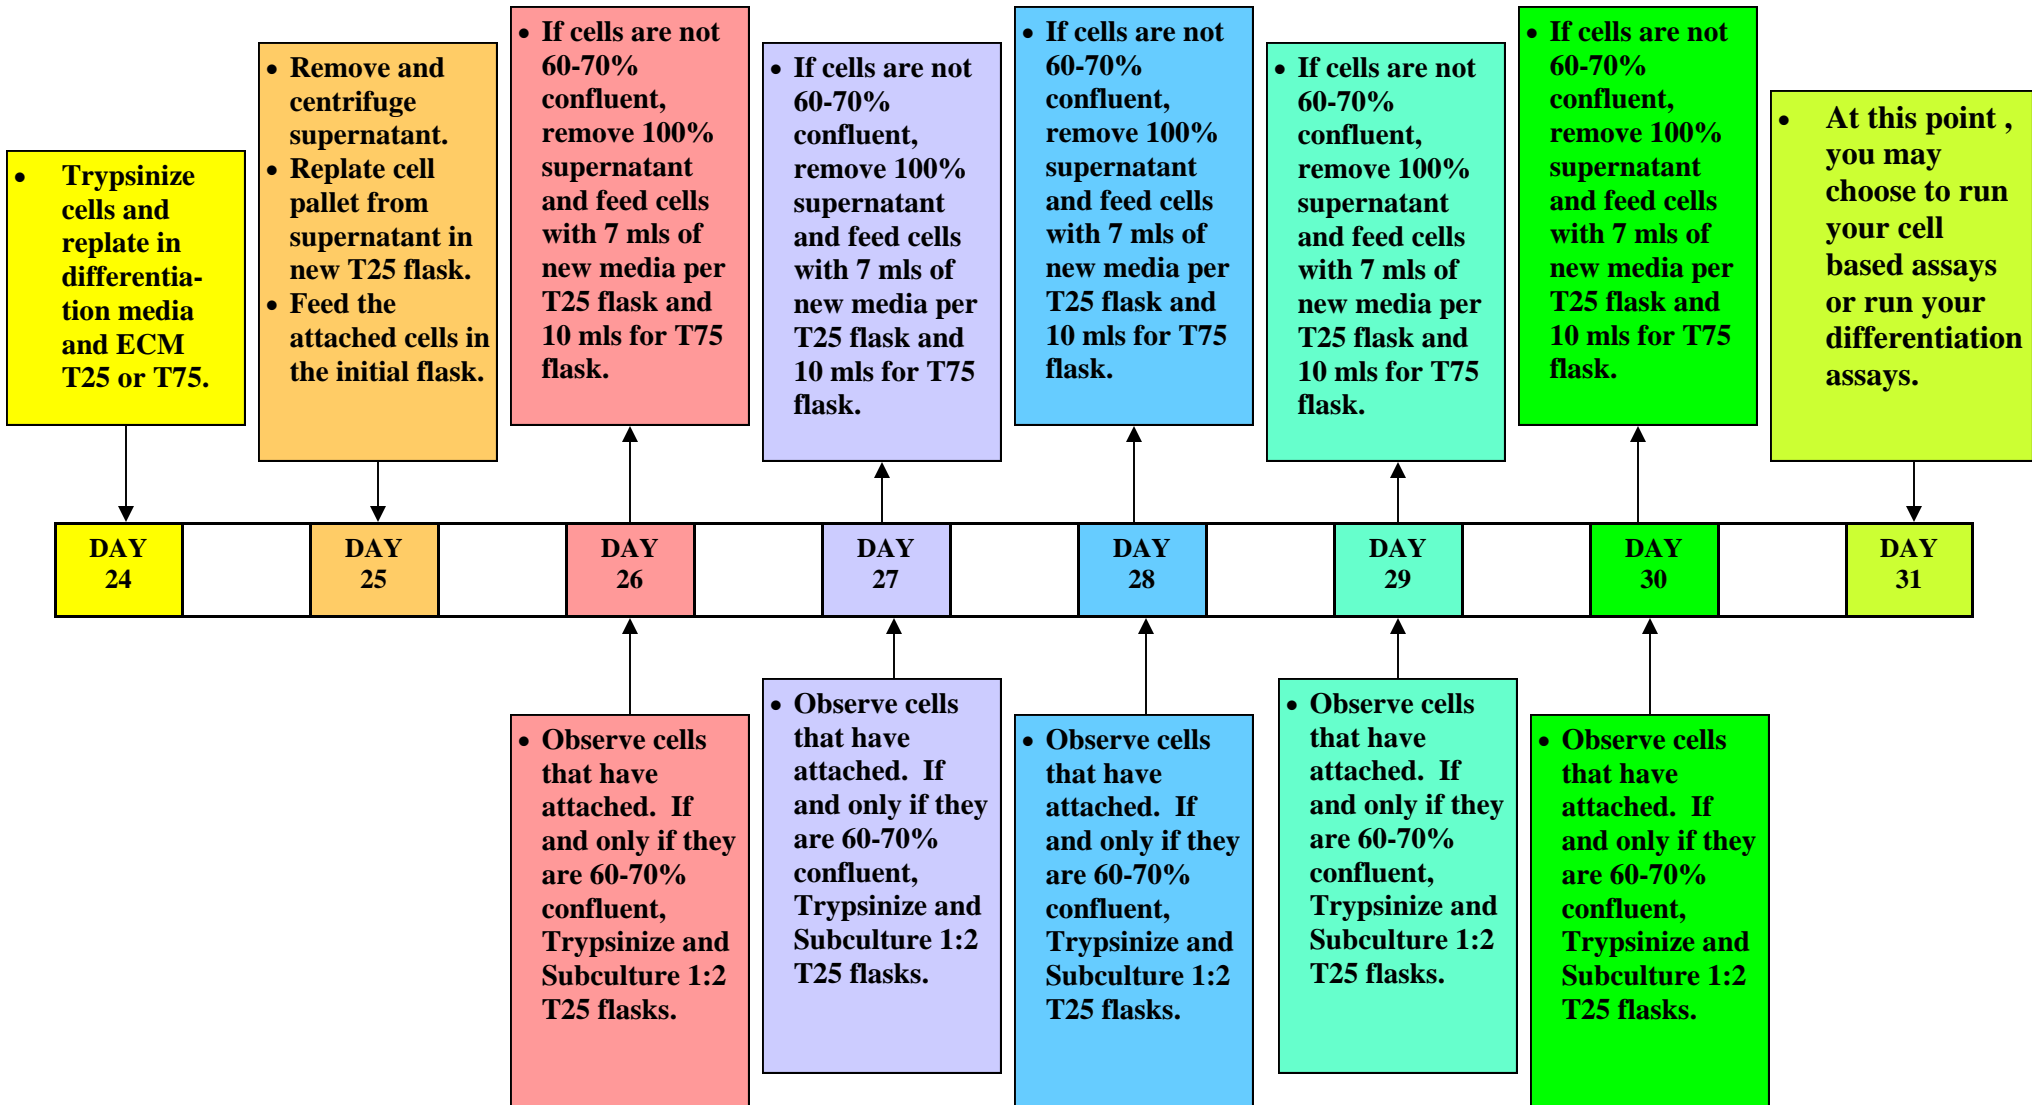

## Undifferentiating Cells with Undifferentiation Media with Serum & Utilizing ECM pre-coated flasks. WEEK #3

Note: Based on the cells proliferation rate, you may be able to freeze more vials.

## Differentiating Cells with Differentiation Media with Serum & Utilizing ECM pre-coated flasks. WEEK #4

Note: Based on the cells proliferation rate, you may be able to freeze more vials.
