DATA SHEET

Rat Embryonic Hematopoietic Stem Cell Extracellular Differentiation Matrix (ECM)

Catalog number: D55092-19

Description: Rat Embryonic Hematopoietic Stem Cell Extracellular Differentiation Matrix for growth, differentiation, and proliferation of Rat Embryonic Hematopoietic Stem Cell in tissue culture with their appropriate media. The Rat Embryonic Hematopoietic Stem Cell Differentiation ECM is available in the following formats: You may choose the tissue culture ware from the table below; each tissue culture ware is packaged with the number of individual items per package. One can only purchase each tissue culture ware as complete packages and will not be able to mix and match individual tissue culture ware formats. For individual catalog items can be picked from the table below or you may please visit our website at <u>www.celprogen.com</u> and choose the formats from the drop-down menu. Each format is tissue culture tested with their appropriate media and cells.

Catalog	Description
