| <b>Description:</b>               | Human Amniotic Fluid/Membrane Complete Expansion Media with fetal bovine Serum and Antibiotics: total volume of 500ml. This media is available in ready to use format. Media is optimized for use with Human Amniotic Fluid/Membrane . Each lot is qualified to support Human Amniotic Fluid/Membrane expansion, growth, and proliferation. Formulated for use in a 5% CO <sub>2</sub> humidified incubator, and use in low O <sub>2</sub> environment: 5% O <sub>2</sub> in a controlled 37 <sup>0</sup> C humidified incubator.                                                                                                                                                    |
| <b>Storage Conditions:</b>        | 2- 8 <sup>0</sup> C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Tissue culture:</b>            | The Human Amniotic Fluid/Membrane Complete Expansion Media with Serum was tested and Optimized with Human Amniotic Fluid/Membrane in tissue culture. The Human Amniotic Fluid/Membrane was grown on Celprogen's Human Amniotic Fluid/Membrane Extra-cellular Matrix pre-coated flasks and Human Amniotic Fluid/Membrane Complete Expansion Media with Serum. This media was optimized on Extra-cellular Matrix and Media combination Cell Culture system for up to 12 passages within 80-120 population doublings. This media is formulated to be utilized in a 37 <sup>0</sup> C humidified incubator with 5% CO <sub>2</sub> . (Protocol is provided with the purchase of product) |
| <b>Product Orders:</b>            | Before submitting an order you will be asked to read and accept the terms and conditions of Celprogen's Material Transfer Agreement (MTA).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Permits &amp; Forms:</b>       | In addition to the MTA mentioned above, other CELPROGEN and/or regulatory permits may be required for the transfer of this CELPROGEN material. Anyone purchasing CELPROGEN material is ultimately responsible for obtaining the permits.                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Notices &amp; Disclaimers:</b> | <i>CELPROGEN products are intended for laboratory research purposes only. They are not intended for use in humans.</i> The product, Human Amniotic Fluid/Membrane Complete Expansion Media with Serum, is established and manufactured by CELPROGEN Inc., for Research use only. This product is not for re-sale or may not be transferred to a third party prior to written request and approval by CELPROGEN Inc.                                                                                                                                                                                                                                                                  |
