

## MATERIAL SAFETY DATA SHEET

**Material Safety Data Sheet (MSDS) For Human & Animal Stem Cell systems including Cancer human and animal Stem Cell systems.**

**Celprogen Stem Cell systems are not hazardous as defined by OSHA 1910.1200. However, as live cells they may be considered as being potential biohazards.**

**CELPROGEN Emergency Telephone: (310) 542-8822 (24 hours)**

**Product Name: Human Glioma Cancer Stem Cell – T150 Plated Cells**

**Catalog Number: 36104-40-T150**

**Description:** Celprogen Stem Cell systems are shipped either frozen or growing cells in liquid Stem Cell medium (a mixture of components that may include, but is not limited to: inorganic salts, vitamins, amino acids, carbohydrates and other nutrients dissolved in sterile filter water).

### SECTION I

#### ***Hazardous Ingredients:***

Frozen Stem Cells may contain 5 to 10 % Dimethyl sulfoxide (DMSO)

### SECTION II

#### ***Physical Data***

Pink or red aqueous liquid.

### SECTION III

#### ***Health hazards***

##### **For Biosafety Level 1 Stem Cells**

This Stem Cell as defined by U.S. Government Publication Biosafety in Microbiological laboratories is not known to harbor an agent known to cause disease in healthy adult humans. These Stem Cell systems have **NOT** been screened for Hepatitis B, immunodeficiency viruses or other adventitious agents unless otherwise indicated in the COA. Handle these Stem Cell systems as a potential biohazard material under at least Biosafety Level 1 containment.

##### **For Biosafety Level 2 Stem Cells**

The Stem Cells defined in this category are known to contain an agent that requires handling at Biosafety Level 2 containment [United States Government Publication Biosafety in Microbiological and Biomedical Laboratories CDC (Center of Disease Control), 1999]. These agents have been associated with human disease. This cell culture has NOT been screened for Hepatitis B, Human immunodeficiency viruses or other adventitious agents unless otherwise indicated in the COA. The Stem Cells and cell lines established from primate lymphoid tissue may fall under the regulation of 29 CFR 1910.1030 Blood borne Pathogens.

## MATERIAL SAFETY DATA SHEET

### SECTION IV

#### Fire and Explosion:

Not applicable (N/A)

### SECTION V

#### Reactivity Data

Stable. Hazardous polymerization will not occur.

### SECTION VI

#### Method of disposal

Spill: Contain the spill and decontaminate using suitable disinfectants such as chlorine bleach or 70% ethyl or isopropyl alcohol.

Waste disposal: Dispose of cultures and exposed materials by autoclaving at 121<sup>o</sup>C for 20 minutes.

Follow all Federal, State and local regulations when disposing of the waste or material.

### SECTION VII

#### Special protection information

##### For Biosafety Level 1 Stem Cells

Handle as potential biohazard material under at least Biosafety Level 1 containment.

Stem Cells derived from lymphoid tissue may fall under the regulations of 29 CFR 1910.1030 Blood borne Pathogens.

##### For Biosafety Level 2 Stem Cells

Handle as potential biohazard material under at least Biosafety Level 2 containment.

Stem Cells derived from primate lymphoid tissue may fall under regulation of 29 CFR 1910.1030 Blood borne Pathogens.

### SECTION VIII

#### Special precautions or comments

Celprogen recommends that appropriate safety procedures be used when handling all Stem Cell systems, especially those derived from human or other primate material. Detail discussions of laboratory safety procedures are available in: the Journal of Cell <http://www.cell.com/>; American Society for Cell Biology <http://www.ascb.org>; United States Government Publication, Biosafety In Microbiological and Biomedical Laboratories (CDC, 1999) <http://www.cdc.gov>

**The above information is correct to the best of our knowledge. All materials and mixture formulations may present unknown Hazards and should be used with caution. The user should make independent decisions regarding the completeness of information based on all sources available. Celprogen shall not be held liable for any damage resulting from handling or contact with the above product.**
